

# Taking minutes

## Agenda for the TA meeting Week 4.

Location: Pulse Hall 3

Date: 15.05.2023

Time: 9:45

Attendees: Diana Micloiu, Cristian Ciacu, Rares Toader, Vlad Nitu, Matei Mirica, Codrin Socol (TA)

## Agenda items

### Summary of action points

- ➔ By the end of the last sprint, the functionality depicted by the must-haves should be complete, thus we should have software in which we can provide the input URL and receive all the similar articles from the database.
- ➔ Apply the feedback from the coach to the requirements.
- ➔ Add a way to show the user that the main page is scrollable, hence the services are visible right away when opening the application.
- ➔ Assignment 5 -> Designing your product deadline 16 May
- ➔ Buddy check 21 May
- ➔ Assignment 6 -> Rubric Introduction and Improved Introduction (individual) 23 May

### Opening by Chairperson

- ➔ Everyone is present at the meeting.

### Approval of the agenda (optional)

- ➔ Agenda has been approved and will be posted on Gitlab.

### [Reflection on last week]

- ➔ Main page + pages for other services (the main ones)
- ➔ Overlapping detection algorithm
- ➔ Setup MongoDB Atlas database + creation of the index needed
- ➔ Started working on the features for the next sprint

### [Feedback from TA]

- ➔ Modify the main page to make services more visible to the user
- ➔ The front end looks good
- ➔ Contribution to Git should be looked after
