Location: Pulse Hall 3

Date: 22.05.2023

Time: 9:45

Attendees: Diana Micloiu, Cristian Ciacu, Rares Toader, Vlad Nitu, Matei Mirica, Codrin Socol (TA)

Agenda items

Summary of action points

- ➔ **Completed buddychек.**
- ➔ **Prepare for midterm presentation.**
- ➔ **Improve database query times.**
- ➔ **Assignment 6 -> Rubric Introduction and Improved Introduction (individual) 23 May**

Opening by Chairperson

- ➔ Everyone is present at the meeting.

Approval of the agenda (optional)

- ➔ Agenda has been approved and will be posted on Gitlab.

[Reflection on last week]

- ➔ Implemented and connected "Check two texts" and "Check two URLs" to the backend.
- ➔ Implemented script which populates the database.
- ➔ Created a dropdown menu.
- ➔ Solved frontend bugs.
- ➔ Started working on improving algorithm efficiency.

[Feedback from TA]

- ➔ Midterm presentation structure:
 - Problem description
 - Our solution
 - Live demo
 - For final presentation: have backup video recorded
 - Roadmap
 - Define plagiarism vs overlap
- ➔ Algorithm alternative: leave it as it is for presentation and discuss limitations / next steps of algorithm (e.g. parallelization)
- ➔ Deploy app from pipeline after final merge.
