

TA Meetings

8 May 2023

- Last week's retrospective:
 - **Frontend:** Main page done
 - Mr will come today
 - **Backend:** implemented database (mongoDB atlas), fingerprint entity, apis for them
 - [One pending MR](#)
- 8-12 may **schedule:**
 - 11th of may, 10:30: meeting COACH
- **Next assignments:**
 - 11th of may, 23:59: table of contents
 - 11th of may, 23:59 (**individual**): Writing the introduction
 - 16th of may 23:59: product design
- **Feedback from TA**
 - **Upload "Sprint Retrospective" on gitlab**
 - Take into account the feedback from the coach in the final report
- **Midterm presentation:**
 - Create when2meet.com and share with ta, coach, client and team
 - We need to book a room from the presentation - DW, EWI or library (ask coach to do the booking, after the we confirm the availability)
 - Duration: ? - wait for announcement
- **Endterm presentation:**
 - Confirm date before midterm presentation, w5 🦴
- Next TA meeting **15 May 2023**
 - Chairman: cristi
 - Note takes: diana
- Always document code!
- Keep up with the good work!

1 May 2023

- [X] Check if we correctly cite research publications / articles (show Codrin Project Plan)
- [X] Show Codrin MOSCOW and incorporate his feedback. Should we add more requirements / split the current requirements into smaller sub-requirements?
- [X] Ask Codrin about DBMS decision: Relational vs NoSQL for storing documents' fingerprints? Are we going to store the "date" as it is (not integrate it in fingerprint & then discard)?
- [x] Should we include the won't haves -> Yes

25 Apr 2023

- Meeting saptamanal - luni, 9:45, Pulse Hall 1
- Create design docs - sa-i satisfacem pe domnii de la facultate
- Client + coach conteaza cel mai mult la nota finala
- Meeting saptamanal cu coach nu e obligatoriu

- Tell coach ca Codrin e TA
- RESEARCH e BAZA - ca sa satisfacem COACH
- Deadline cod - week 9, spre sfarsit
- Deadline final report - week 9, spre sfarsit
- Client saptamanal
- MVP - Minimum viable product pana la midterm
- Pipeline - sa ruleze numa pe merge request-uri (nu trebuie pe commit-uri? By default e pe comimt, el recomanda sa l punem doar pe merge-requesturi)
- Documentatie (!)
- Scrie README frumos

TODO

- Plan meeting with coach - Week 3
- Read Master Paper
- Read Django + React docs + example repositories
- Repository GitLab setup (template issues + MR (%) + etc., pipeline, template React & Python Django, checkstyle, ...)
- Code of Conduct
- Project plan (MOSCOW)
- Choose DBMS

Problem + feasibility analysis

Questions

- Meeting w/ client mandatory weekly / when we feel to do so
- Meeting 8.45-10.45 Monday - 9.45/10.45 Pulse Hall 1 (fizic)
- Final presentation - which day (talk to client)
- What kind of references do we have to cite? In report scientific papers.
- How many times do we have to merge dev - main per week? - la liber
- Can you make the `main` branch protected (after we create the repo)
- What is considered Research?
