1 User experience evaluation questionnaire - NewsCop

1.1 Rating questions

Please rate your experience using a scale of 1-5 (1 - "Very Dissatisfied", 2 - "Dissatisfied", 3 - "Neutral" 4 -"Satisfied", 5 - "Very Satisfied").

- How would you rate the usability of the application's Main page?

- How would you rate the overall usability of the services provided by NewsCop?

- How would you rate the accuracy of the responses given?

- How would you rate the speed and responsiveness of the application?

- How would you rate the overall accessibility of the application?

- How would you rate the design of the application?

1.2 Yes/No questions

For the following questions, please respond by choosing Yes or No and, in the latter case, provide suggestions for eventual improvements.

- Did you consider the application easy to navigate through?

- Did you consider the Help page useful?

- Did you consider the services provided to meet the goal of a news overlapping web application?

- Did you find the process of inputting news articles' URL/text intuitive?

- Did the application provide clear instructions or guidance on how to use its features effectively?

- Would you recommend this news overlapping detection web application to others?

Thank you for taking the time to complete NewsCop's User Experience Evaluation Questionnaire and sharing your valuable feedback with us. We'll be closely reviewing your suggestions and making any necessary adjustments to enhance our services.
